

Women speak about their Winter Moon Lodge Experience:

I had another amazing experience at the Winter Moon Lodge. I came in with a few expectations, considering I had been to the autumn Moon Lodge, and was pleasantly reminded by God that I should never come with any expectations when visiting the Moon Lodge. I was in a very different place this time around and was able to get in touch with a lot of sadness, mourning and awareness of my need to let go of some internal struggles I have that prevent me from truly enjoying God and all that he has for me. Being in this beautiful place with such lovely women helped me see what I need to do next. This experience along with Leslie's guidance and amazing insight will continue to bless my life and the memories will never fade. Thank you Leslie, for all you have done to bring women together to experience God's wonders. It was amazing. H.B.

Getting away from the busyness and noise of everyday life and tuning in to what God, my body and my heart was trying to say to me was a powerful experience. Being with other women who were experiencing the same "ah ha" moments was awesome. I feel different today and know what I need to do to experience that feeling everyday now. Thank you for being a guide for us. S.P.

The winter Moon Lodge experience was exactly what my mind, body, and soul needed as I continued in my season of loss. The Moon Lodge participants affirmed me as a "wise woman", nurtured my sorrowful soul, and validated me as the "beautiful gray-haired" woman that I am. The roar of the ocean put a smile on my face, touched the "little girl" trapped inside my spirit, and reminded me that God's earthly creation is awesome. I can hardly wait for the spring Moon Lodge! P.B.

The winter Moon Lodge was a unique experience for me. I loved learning new things about my body, mind, and soul. The door was opened to deeper healing and I took away tools and techniques for my continued growth and healing. I highly recommend it and I will be back! L.R.

Before I left for the winter Moon Lodge, I had been experiencing an anxiousness and impatience to buy a house and have a "permanent" place to live. This feeling had been a source of unhappiness and of a disjointed existence living with my new husband in our town -home. I was becoming very negative, and even resentful.

After coming home from the Moon Lodge, I have a new contentment and peace. My focus has turned to enjoying time with the man I adore and not on the place where we live. Last night, the feelings were so powerful that I just blurted out to my husband "I am happy". He smiled, gave me a big hug, and said that he could tell things were different.

The final ceremony at the Moon Lodge to leave certain things behind was very powerful for me. The picture of watching my "things" disappear over the cliff into the ocean below is still with me. R.S.
